

FORK END MS-20667

Ideal for clevis-type attachments with the advantages of a compact aircraft terminal when used together. Both are made to MIL-DTL-781 specifications with a durable grade 303Se or 305 stainless steel construction. Fork and eye ends are both furnished without pins. When ordering, measure the length to the center of the pin hole. Other sizes are available on request.

SW 667 FOR NON-MILITARY APPLICATIONS
